A Web Page

https://

This will be a logo. The Vinelife log is actually green.

Home | about | founders | thought for the day | ETC.

navbar links

I wanted a couple of larger hero image which try to tell the user what Vinelife Curch Wilmslow is really about! I can add a 15 second delay using JavaScript where the images will switch.

Font Family is
Lato Arial sans-serif
Montserrat Arial sans-serif
Playfair Display serif
throughout this website, I did some research into fonts which work well for church website and went for these.

H1

Button Button

Hero Section
- Welcome message with church mission
- Call-to-action buttons
- Social media links (Facebook & YouTube)
- Stunning background imagery

Visual Design
- Grape-inspired color palette with deep purples, greens, and complementary corals
- Elegant typography using Crimson Text for headings and Open Sans for body text
- Subtle text shadows with consistent rgba opacity system for modern appearance
- Smooth animations and hover effects throughout
- Enhanced readability with refined contrast and shadow optimization
- Hero image slideshow alternates between two images every 15 seconds
- Tinted hero images vinelifewilmslowhero.webp is black and white with a dark tint, ChatGPT image has a balanced dark tint for improved contrast.

Color Palette
- Primary: Deep purple grape (#3D3322, #4a0e4e)
- Secondary: Forest and emerald greens (#226a22, #4a5741)

The different section this website will have. I will use different complementary colours which work well with the Vinelife Green logo and the purple.

About Section
- Comprehensive church history since 2000
- Information about church planting and training
- Community involvement and outreach programs
- Details about Hope Central charity partnership

I think having section give the website better flow.

Founders Section
- Meet Robert & Cheryl Larkman
- Leadership background and vision
- Professional photography
- Personal story and community connection

Events Section
- Monthly event calendar with interactive cards
- Event types: Coffee & Chat, Worship Meetings, Summer Recess
- Location and timing details
- Visual event categorization with icons

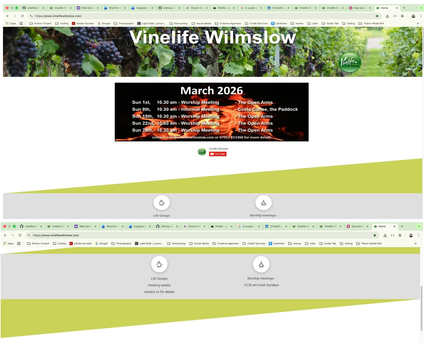
YouTube Channel Section
- Dedicated YouTube section with channel branding and icon
- Direct links to YouTube channel
- Feature highlights: Live Services, Sermons, Events
- Centered Call-to-Action buttons: "Visit Channel" and "Subscribe"
- Responsive design - adapts to all screen sizes
- Animated YouTube icon with hover effects

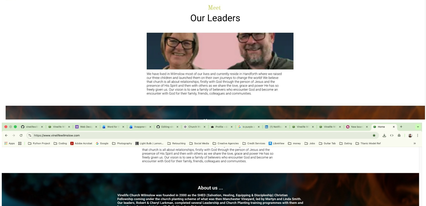
Resources Section
- CAP (Christians Against Poverty) - Debt support services
- Debt Course - Faith-based financial program
- Hope Central - Local charity for food banks and community support
- External links to partner organizations

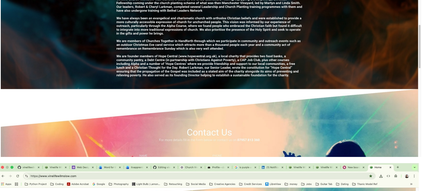
Find Us Section
- Interactive Google Maps embed
- Complete address
- Contact details and parking information
- Contact details in an accessible format

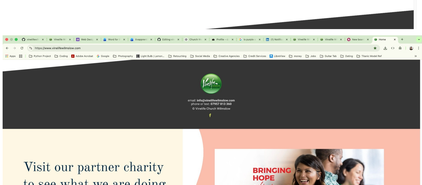
Contact Section
- Contact form with validation
- Required fields: Name, phone number, message
- Optional email field with validation
- Form submission with user feedback
- Social media links (Facebook & YouTube)

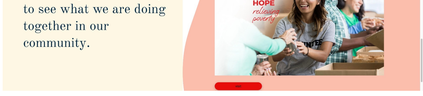
OLD Vinelife design

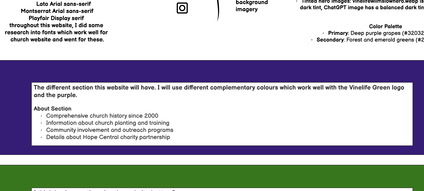
This is the current Vinelife Church Winslow website which I used as inspiration for my redesign. The first thing I noticed was the structure of the website isn't very good, theres no navbar which makes navigating the website very difficult, so I decided to put in a navbar with all the content of the website divide into individual sections and adding navigation links so when you click on them they go to that section, also dividing the site into it's own sections makes everthying organised and the structure better.


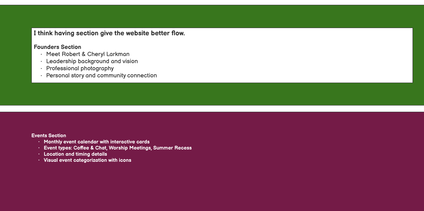












The second thing I wanted to add was make sure everything works, for example when click on a button to go somewhere to another website it actually goes to it! Something else I did was to add Google Calendar API and using JavaScript so the monthly worship meetings will updated itself each month and so I won't have the manually change th code.
